Administer Your Account

Using the institutional Administrator account, you can view many aspects of settings through the Institutional Admin Dashboard, including:

- IP Addresses
- OpenURL settings
- Account number and contact information
- COUNTER Reports
- Holdings and subscription dates

If you are set-up with an Admin account, you should have a username/password to access this account. If you attempt to log in and do not see the Institutional Admin Dashboard, you do not have an account or you are using the incorrect log-in credentials. Contact asmedigitalcollection@asme.org for assistance. If you do not remember your password, it can be reset.

Note: To request changes pertaining to your institution's account (for example, IPs, Admin affiliation, etc.) contact asmedigitalcollection@asme.org
