CorporateSelect

Your user community may be small, but its information needs are **no less critical than those of larger corporations.**

Give your users the tools they need to succeed in today's increasingly competitive environment while you control costs.

CorporateSelect provides access to relevant material when and where it's needed most, with the ability to **pick and choose** from The ASME Digital Collection's unparalleled breadth, depth and richness of content.

Most accessed journals (2016):

- *Applied Mechanics Reviews*
- *Journal of Engineering for Gas Turbines and Power*
- *Journal of Fluids Engineering*
- *Journal of Heat Transfer*
- *Journal of Manufacturing Science and Engineering*

The Choice is Yours!

CorporateSelect is a new flexible purchase option that enables small corporate customers to obtain access to individual journal articles and proceedings and ebook chapters of interest from The ASME Digital Collection.

Select Content

The ASME Digital Collection is ASME's online full-text platform that **delivers a comprehensive and authoritative knowledge-base of mechanical engineering content:**

ASME's Journals
from 1960 to
the present
(close to
95,000 articles)

**ASME's
Conference Proceedings**
from 2002 to the
present (nearly
125,000 papers)

ASME Press eBooks
selected from 1993 to
the present (close to
9,000 chapters)

Select Your Bundle

Articles, papers and chapters are available in a variety of bundles to match your specific needs. CorporateSelect token packages are available in 100, 200 and 500 increments. Increasing volume discounts are linked to the number of articles. Minimum purchase of 100 articles/chapters.

Eligibility requirements:

- Single site only
- Maximum number of researchers: 50
- Access to users from a single domain

Benefits for You

- Instant access to a rich and relevant library of full-text content to which your corporation does not currently subscribe
- Considerable cost savings on a per article basis
- Unlimited concurrent user access for 24 hours
- Monthly reports to monitor article usage

Eligibility

Small- and medium-sized corporations with a **maximum of 50 researchers** at a single site and from a single corporate domain. *CorporateSelect* may be added as a supplement to your ASME Digital Collection subscription.

Content

Articles, papers and chapters may be selected from any unsubscribed journals (current year and entire backfile), conference proceedings or eBooks in The ASME Digital Collection. A single article, paper or chapter may be redeemed for 1 token.

For complete lists of titles go to:

asmedigitalcollection.asme.org/journals.aspx

proceedings.asmedigitalcollection.asme.org/conferenceproceedings.aspx

ebooks.asmedigitalcollection.asme.org/books.aspx

Functionality

Users benefit from the full functionality of The ASME Digital Collection platform, including multimedia files, topic collections, sophisticated information discovery, CrossRef linking, personalization features, ease of reading and optimized viewing on all digital devices.

Entitlements

Download full-text articles and book chapters in searchable PDF or view the HTML up to the number of items specified in your pre-purchased bundle. Users may view abstracts of all articles on the platform.

24-hour access to selected full text is enabled. Users may print or download content for local storage and use.

Access Control

You can opt to authorize a UserID as the only person who can spend article access tokens. Other Authorized Users must pass their requests for articles to this user. This provides optimal control over how articles, papers and chapters are obtained, preventing the account being depleted in a short period of time.

Usage Reports

Article usage is included in monthly statistics reports and available via the admin "My DC Account."

Bundle Pricing

Please contact your Regional Sales Representative to discuss your needs and bundle pricing options.

Subscription Period

One-time purchase of article bundles, which expire after one year from the purchase date. Bundles may be purchased in quantities of 100, 200 and 500.
